NOTE TO PHYSICIAN: Treat symptomatically.

SECTION 5: FIRE-FIGHTING MEASURES

FIRE AND EXPLOSIVE PROPERTIES: Flammable Liquid

FLASH POINT: <21 C / <70 F

EXTINGUISHING MEDIA: Water fog or fine spray. Dry chemical fire extinguishers. Carbon dioxide fire extinguishers. Foam. Alcohol resistant foams (ATC type) are preferred. General purpose synthetic foams (including AFFF) or protein foams may function, but will be less effective.

SPECIFIC HAZARDS: During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating. Combustion products may include, but are not limited to: Carbon Monoxide. Carbon Dioxide.

ADVICE FOR FIRE FIGHTERS: Keep people away. Isolate fire and deny unnecessary entry. Stay upwind. Keep out of low areas where gases (fumes) can accumulate. Use water spray to cool fire exposed containers and fire affected zone until fire is out and danger of reignition has passed. Burning liquids may be extinguished by dilution with water. Do not use direct water stream, as it may spread fire. Eliminate ignition sources. Move container from fire area if this is possible without hazards. Burning liquids may be moved by flushing with water to protect personnel and minimize property damage. Use caution and test if material is burning before entering area. Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes.

METHOD FOR CONTAINMENT AND CLEAN-UP: Highly flammable liquid. Prevent product from entering drains and ventilation systems. Contain and soak up spill with absorbent that does not react with spilled product. Place used absorbent into suitable, covered labeled
SECTION 7: HANDLING AND STORAGE

HANDLING: Read entire label before using. Use strictly in accordance with label precautionary statements and directions. Keep away from heat, sparks, and flame. Avoid contact with eyes. Avoid breathing vapor. Wash thoroughly after handling. No smoking, open flames or sources of ignition in handling and storage area.

STORAGE: Keep product in its original container. Keep container tightly closed. Store this product in a cool, dry place away from heat or direct sunlight. Protect from freezing. Keep away from heat, sparks, flame and other sources of ignition.
